TPMS Go

Features

- › Activates TPMS sensors of all light vehicles worldwide, displays all sensor data
- › Programs all leading universal aftermarket sensors
- › Displays all sensor data in seconds, e.g.: ID, tire pressure and temperature, battery status
- › Selects vehicles via make-model-year look-up
- › Provides TPMS sensor part numbers
- › Tests remote key entry (RKE)
- › Easy-to-read display, with adjustable backlight
- › User friendly navigation and command buttons
- › Frequent database updates via PC desktop software

Database

- › All OE sensors worldwide and all leading aftermarket sensors including Schrader EZ-sensor, Alcar by Schrader, Alligator Sens-it, Huf Intellisens, REDI Sensor, Hamaton T-Pro/EU-Pro, Orange DirectFit/Universal EU and Mobiletron
- › 100% of all light vehicles worldwide equipped with indirect and direct-type TPMS
- › 3 years Update Plus inclusive (free software and database updates)

Languages

- › DE, EN, IT, FR, ES, CN, CS, DA, FI, HE, HR, HU, KO, NL, NO, PL, PT, RO, RU, SK, SL, SV, TR

Delivery content

- › TPMS Go
- › Charger
- › USB data cable
- › Quickstart instructions
- › USB thumb drive containing WebTPM PC software, driver programs and user manuals

Technical data

- › Weight: 250 g
- › Dimensions: 150 mm x 80 mm x 25 mm

Part number

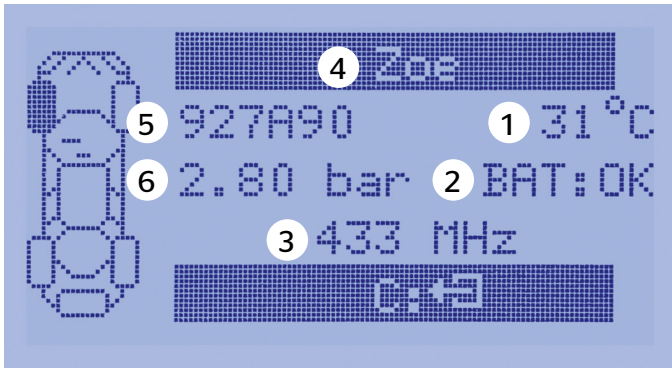

TPMS Go 2910002037400

TPMS Go:

Low cost, robust and easy to use

Check Sensor Data

- | | |
|-------------------|----------------|
| 1 Temperature* | 4 Vehicle data |
| 2 Battery status* | 5 Sensor ID |
| 3 Frequency | 6 Pressure |

*some sensors do not show the battery status.

Integrated Part Number Look-Up

TPMS Go guides you to compatible sensors and part numbers for any vehicle, and indicates the correct torque values.

Programming and Relearning

Quickly program aftermarket sensors, one wheel at a time. For relearning, use the TPMS Go with a diagnostic scan tool or follow the vehicle's instructions for auto or manual relearn.
